PRESIDENT'S REPORT

Well spring is here (hopefully). I am sick of the rain. Over the past months, it feels like every time I let the dogs out into the paddocks, I am watching them have a great time (thinking how dirty they are getting). Then they see me, with a smile from ear to ear, they come running, water and mud flying off in all directions as they run though even more puddles! I have tried yelling 'NO', but this has little effect on Samoyeds that are happy to see you.

have a few laughs.

Our next Fun Day will be the Snow Dog Match, this is when we compete against the Siberian Huskies and Alaskan Malamutes. More fun stakes with a B.B.Q. to finish with. It is advertised in this magazine. If you want to know more info please contact me.

Our Open show this year will be held 4th November at Taupo. This show will not be advertised

We are holding the Mystery Auction with the Taupo Open show. It was a lot of Fun at the last Taupo Show and was a good fundraiser. I have decided to donate the Samoyed Plate that I won as one of the Mystery Auction prizes. If you can't get to Taupo, get someone else to 'Bid for you' .

I am Secretary/Treasurer of The Spitz Breeds Club which is holding their show with the NZKC

National this year. We have a good Samoyed entry from all over NZ, so I look forward

to meeting up with some of our members then.

bye for now

Anita Shugg

The Ribbon Parades are for all Non-Champion Samoyeds. Pet Samoyeds are welcome

They do wonder why you are not happy to have cuddles from them !

Over the past years, we have organised our Ribbon Parades to be outside, but I think it has rained for every one ! So this time we held our Ribbon Parade in August at the NZKC Building at Porirua. Every one had a great time. Millie showed her 11 year old boy in the Veteran Stake, it was only the 2nd time he has been in the Show Ring, he seemed to enjoy it. It would have been nice to see more pet owners. A good time to meet your committee and learn more about Samoyeds. The Ribbon Parades are for all Non-Champion Samoyeds. Pet Samoyeds are welcome and do not have to have papers. We decided to have some fun stakes like ' Best Party Trick', 'Waggiest Tail' and 'Smiliest Face', so everyone had a chance to win a ribbon and

in the Kennel Gazette. If anyone needs extra copies of the Schedule, please ask. We have Bosch Sponsoring this show with Dog Food. Lorraine has found some good prizes, we are now looking for people to sponsor the 'In Show prizes'. Please contact Lorraine if you would like to sponsor.

I have decided to donate the Samoyed Plate that I won as one of the Mystery Auction prizes. Make sure you come and bid

TREASURER'S REPORT

The Club continues to operate successfully. Membership now stands at a total of 49.

This year saw the fulfilment of a five year fundraising project to bring an overseas judge to judge our Championship show. The Championship show was very successful with a large entry and ran within budget.

SECRETARY'S REPORT

Wow! Can't believe how fast this year is going by. It is getting lighter in the mornings which is a good sign as I no longer need flashing reflectors on my dogs when I run them at 6 in the morning. Its also nice to not feel that bitter chill coming off the Hutt River early in the morning.

Speaking of the Hutt River, we have some wonderful tracks for walking dogs and we are extremely lucky to have the most beautiful scenery. Join us on our next Samoyed Walk and see for yourself. All are most welcome and we would love to have you join us. Most of the committee will be there, so feel free to fire away your questions we will try our best to answer.

Our Ribbon Parade, held in conjunction with Wellington Ladies Kennel show weekend, was great fun. We had the usual breed classes with just a fun spin on stakes classes Waggiest Tail, Best Trick, Smiliest Face etc. These were well received and our judge, Robyn Baylis appeared to be enjoying herself! Thanks to all who turned out to support the club.

Don't forget our Open Show coming up in November in Taupo. This in the past has been a fun weekend with beautiful weather to enjoy. We are holding a mystery auction to raise funds for the club. If you are interested in contributing, please contact Lorraine.

Until next time Anita

thank-you

THE RACING SAMs...

But where do I start?

I have decided to start at the beginning of this year.

In early Jan Mac, Fred, Seb, Luke and I found a nice little place, just outside of Foxton, that would suit our needs for a couple more years. There were nearly 1000 acres that we could use for training (as long as the cows weren't in the way). Unfortunately it doesn't snow around here... but beggars cannot be choosers.

We have a gravel road outside our gate, this is great for letting the boys out on and toughening up their feet, as the rest of the place is mainly sand and grass, the farm's races are wide and sometimes shitty... lol. But that doesn't seem to bother the boys, they are keen to catch the next rabbit that they flush out.

This year Luke and I have gotten in to more motor bike racing (or, in my case motor bike crashing) and so the dog racing has not been as full on as previous years, but that is not to say that we haven't done any training, the longest run we had was just a little over 8ks, some of you will remember that years gone by we have done up to 20ks in a single training run, but

Unfortunately it doesn't snow around here

I was targeting a different type of race then, also I had the use of 4 young dogs. Mac is getting on a bit now, I think he is 10/11 (Lynne will correct me there) and he cannot keep up with Fred and Seb any more... BUT he can still do the distances I ask of him, which is around 3-5ks per run. I free run him so he sets his own pace. He tends to arrive home no more than a couple of minutes behind the rest of us. I am always waiting at the gate for him. Even though they are white, sometimes at night you can only see him within the last 50 or so meters from home, so I really have to use my eyes..... A torch? What the hell is that? Hahahahaha

The first race we went to this year was at the Wiatereri forest - the temp was around 7deg (I think) and I only took Fred and Seb as there were no veteran races, and those of you who know Mac..... well he barks a bit.

We came last.

But we had a lot of fun. I wore my new gumboots as it was raining a LOT, and there were BIG puddles and when I finished I had BROWN dogs

Why did we come last?... well we had only done 2 training runs beforehand. The weather around here had been too warm (over 10 deg.) to even think about a run..

But that soon changed, the grass turned white and the boys were jumping out of their skin to go out... we are lucky here, as most times the paddock next to us is empty of stock... but it is home to a few rabbits, and the dogs know this, so on really cold mornings, all I have to do is open the gate and there are 3 white blurs running off into the distance, there are small hills and trees for them to race around (Luke has made a M/X track here also) the rabbits disappear

into thin air, but that does not stop the boys from thinking that they are still there, and when it is time for them to come home, I just call them back. Sometimes I take them into the next paddock, but not often.

He came last... but his tail was still wagging!!!

We have been training up for a 2 heat race at a winery in Hastings. The length is around 5ks, one heat Saturday morn and the other on Saturday night. Would the boys recover well enough? We were also in the freight class, just to add to the workload.

Mac was in the vet with Luke being the musher.

He came last - but his tail was still wagging!!! (we latter found out the reason he was last, another dog decided to have "a go" at the blond as Mac OVER-TOOK her . There was a bit of hair pulling as Mac and Luke tried to get away, they did and Mac did as he was told and to carry on, Mac did NOT retaliate OR start it... he was a good boy but it put him off his game for the rest of the day)

Fred and Seb on the other hand... we went well. In the first race I managed to overtake a couple of Mal's !!! The team ahead of them were also Mal's and then there was a team of cross breeds, not sure what make. We couldn't catch the next team and we came 3rd in the first heat beaten by just over 1 minute by the second place getter.

I had fed the boys the day before at lunch time. This meant that they had nearly an empty stomach by the end of the first heat and were really hungry... great plan ... if they would eat that is... when I came to feed them after the first heat they were not interested (yes I had waited an hr afterwards.) so they finally got fed around 2 hrs before the next race. Bugger, I

thought (it was fatty chicken necks ,,,mmmm) that may have hindered their race. But NO, the boys raced away, catching up to the second place, getter and even overtaking them... for a bit, the Mals, they are a strong powerful breed, and my guys just didn't have the power to pull away for long, the Mals just keep the same speed as us. When we speed up, so did they, but when they sped up, Fred got really going, he even at one stage pulled me, the freight AND Seb and over took them again... what a dog!!! We were neck and neck for around 2ks the musher and I were having a good old chat. Unfortunately on the last corner, just as I said to Fred "LETS GO" (this makes the boys speed up for around 20m) one of the Mals finally had, had enough of the blonds and decided to pull some of Fred's hair. Poor old Fred, I jumped in and tried to separate them. Seb was doing his best to stay out of it, but they were joined at the collar by a 5" neck line.... Finally I got them separated, and Fred and Seb were out of there, I JUST managed to jump on the rig as it flew past. We crossed the finish line seconds later. Everyone was concerned with Fred, but there was NO blood, only a bit of hair loss. And a pissed off Fred but nothing more. When we got back to the van, I noticed blood on my hand... yep I was the only one bitten, I had 3 nice big holes in my wrist, the teeth had missed all the important bits, so off to the doc and ... take 2 tablets and see ya in the morning (actually he gave me some strong penicillin tablets I had to take for a week). I found out a week latter that we had come in SECOND (combined total times from both heats) by 20sec.!!

After that race I purposely left it a week before the next training run, this time I harnessed up the dogs and attached them to a quad bike... there lies a couple of other funny stories.....

Andy Jameson

ATTENTION ALL DOGS!!!

THE FOLLOWING ARE IMPORTANT INSTRUCTIONS FOR EVERY DOG TO KNOW

INSTRUCTIONS FOR PROPERLY HUGGING A BABY

1. First, spy a baby.

2. Second, be sure that the object you spied was indeed a baby by employing classic sniffing techniques. If you smell baby powder and the wonderful aroma of wet diapers this is indeed a baby.

3. Next you will need to flatten the baby before actually beginning the hugging process. **Note: The added slobber should help in future steps by making the "paw slide" easier.

4. The "paw slide" - Simply slide paws around baby and prepare for possible close-up

5. Finally, if a camera is present, you will need to execute the difficult and patented "hug, smile, and lean" so as to achieve the best photo quality.

Dogs, if this is properly done, it will secure you a warm, dry, climate-controlled environment for the rest of your life. Good luck to all of you!

12. **Nova Scotia Duck Tolling Retriever**
CLUE: This country borders the US to the North. _____
13. **Kerry Blue Terrier**
CLUE: People celebrate this country on St. Patrick's Day. _____

DOGOLOGICAL

21 March - 20 April

ARIES

"Pets born under the sign of Aries are bold and adventurous."

As the first sign of the zodiac it is only natural that Aries pets want to be the leader of the pack. Take your dog into the countryside and he'll soon be picking up a scent or act like a trailblazer. Gun dogs, whip-pets, lurchers and hunting dogs thrive under the sign of Aries. Most Aries dogs cannot bear to be tied down and must frantically explore every nook and cranny in their environment. They want to make their mark upon the world. He'll also be completely intolerant of other dogs, get into inevitable scraps, and will try to dominate every pet and person in the household.

21 April - 21 May

TAURUS

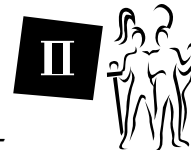

"Taurean pets have a placid nature, except when pushed to the extreme."

The Taurean dog is loyal, faithful and easy to train. They make the perfect guide dogs and are great with children. They are big softies and everyone adores their kind nature. They are strong when young but get fat with age. It is rare to find an older Taurean dog that's not overweight. Their first love is food but a close second is music. If you want to keep your Taurean dog happy, play him some Beethoven - he'll sit and listen for hours and may even howl along. They don't move much, or very quickly, except on those rare occasions they are taunted or threatened.

22 May - 21 June

GEMINI

"Gemini pets are intelligent, entertaining, and quick to learn tricks."

Your Gemini dog can never settle. They get bored so quickly that they require constant attention. They thrive in new environments and will love it if you ask a friend to have them for a few days. If you can overcome their impatience you'll soon be able to teach them tricks from playing dead to somersaulting through flaming hoops. They love to show off. With fleet footed mercury as their ruling planet Gemini greyhounds are some of the fastest runners of them all. But keep an eye on your Gemini dog for they are unfaithful and may run away forever!

22 June - 23 July

CANCER

"Your over sensitive Cancerian pet thinks it's one of the children."

Don't bark commands at your Cancerian dog or he's liable to burst into tears. Cancerian dogs are the most sensitive of all the zodiac signs and are likely to be very moody. They need to know that you need them and consequently require constant patting and reassurance. You'll be saying 'good boy' until your throat is sore. They make wonderful parents so you should allow them to have a litter if possible. They are also good with children and think that they are one of them. Your dog should have been born with flippers not paws for the Cancerian dog will jump into water at every opportunity.

24 July - 23 August

LEO

"Extrovert and gregarious Leo pets need to be admired"

King of the dogs, standing erect, the Leo dog is confident, fearless and proud. They make excellent police dogs and will fearlessly chase criminals, enter blazing buildings or sniff out bombs. Dogs praised for their bravery or pampered by royalty are more often than not born under the sign of Leo. Your Leo dog cannot bear to be ignored. Their vanity has no limit and they love to be the centre of attention. Leo dogs are fiercely loyal and would rather die protecting you than allow you to come to any harm. They make excellent guard dogs but may be scared of cats.

24 August - 23 September

VIRGO

"Virgo pets are conscientious, clean, and love to work."

There'll be no unpleasant surprises when you return home to a Virgoan dog. They are the cleanest and most hygienic of all the pet zodiac. Virgoan dogs also like routine so make sure that you walk them at the same time every day and they'll expect to be fed on the dot. Sheep dogs and working dogs in general thrive best under this sign. They will work from dawn to dusk and enjoy being productive. Traditionally Virgo rules small animals so even toy dogs such as Chihuahuas thrive under this sign. All Virgoan dogs are loyal and expect the same steadfastness from you.

24 September - 23 October

LIBRA

"A pretty pet that naturally blends in with its surroundings."

DOGS: You can't say no when those big brown eyes of your Libran dog plead for food at the table. Libran dogs are remarkably persuasive even manipulative. They enjoy the best that money can buy so throw away that old blanket and make sure his basket has the finest silk lining. Libran dogs hate being alone and will pine for you when you're away from home. They also need the company of other dogs and love peace and harmony in their environment. Their worst fault is that they can be ridiculously stubborn. If he doesn't want to go for 'walkies' you'll never budge him.

22 December - 20 January

CAPRICORN

"Capricorn pets look old before their time."

DOGS: They say that Capricorn dogs look old from the moment they are born but improve with age. The sign of Capricorn favours breeds that can withstand cold climates such as St Bernards or Huskies and the practical earthly nature of this sign makes them unafraid of hard work. However, because they are Saturn ruled, they may take an exceedingly long time about anything they do. 'Walkies' with a Capricorn dog can be infuriating as they forever lag behind. They are stubborn and may ignore your commands or calls.

24 October - 22 November

SCORPIO

"Scorpio pets are loyal and expect absolute loyalty in return."

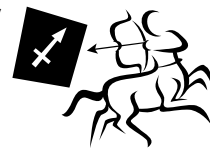

DOGS: Scorpio dogs are either your best friend or worst enemy. They can love or hate with a passionate intensity. If you wrong a Scorpio dog they will never forget but will also not forget when you treat them well. The sign of Scorpio governs secrets and perhaps because of this, dogs born under this sign make the best trackers. They'll sniff out even the most subtle scent trail. This is the ideal sign to be born under for Bloodhounds, Cocker Spaniels and any dog with an acute sense of smell. Also, the sexual prowess of the Scorpio dog makes them ideal breeding dogs.

23 November - 21 December

SAGITTARIUS

"Brave active and bright the Sagittarian pet will always amuse us."

DOGS: Pity the poor bitch who has a litter of Sagittarian puppies for as youngsters they are a whirlwind of hyper active energy. As they grow they become more controlled, muscular and sturdy. Large dogs such as German shepherds, Labradors and the Old English Sheepdogs fare well as Sagittarians as do long limbed dogs such as Borzoi or Afghans. A fire sign with a planetary ruler of Jupiter makes these dogs exceptionally brave and lucky. They are very trustworthy and reliable and particularly suitable working for the blind. They have lots of character and know amusing tricks.

21 January - 19 February

AQUARIUS

"If your pet is totally bonkers - it's probably an Aquarian"

DOGS: "Sausages" and other smart Alec speaking parts on 'That's Life' were pioneered by Aquarian dogs for if a dog's being daft he's likely to be an Aquarian. An Aquarian dog has traits that other dogs would find strange. They'll perform in the circus, enjoy being on the TV, and may sometimes appear more human than dog. But their heart lies with their own species and they love to run with the pack albeit somewhat erratically. A happy Aquarian dog is one that is given as much freedom a possible for he just loves to be let off the leash.

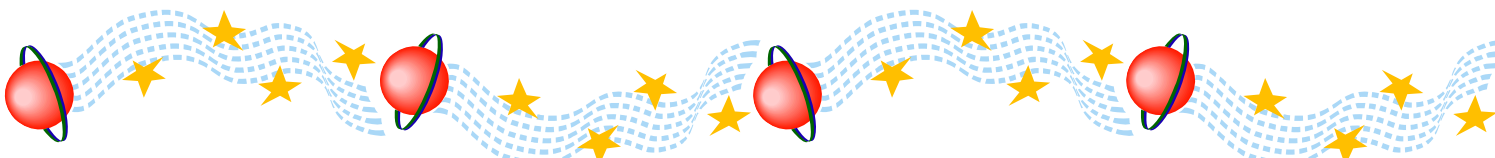

20 February - 20 March

PISCES

"Piscean pets will know if you're happy or upset"

DOGS: Mongrel dogs fair best under the sign of Pisces for this is the sign that is said to contain qualities from all the other eleven signs. It's confusing being a Piscean dog. No sooner an idea springs to mind than another better idea replaces it. You may notice your Piscean dog pacing between the fire, his basket and bowl. The Piscean is also a salty dog and his favourite day out would be a walk by the sea shore. He may even enjoy eating fish! Traditionally Pisceans have very weak ankles and paws so keep an eye on these areas should he start to limp.
