PAWS FOR THOUGHT

Hi everyone,

As you can see from one of my puppy photos, this editorial lark is nothing new to me! In fact, I had some very concentrated training with BIC in previous months...apparently I get to use red ink when I am a little older and the DomPost gets down the driveway in one piece—well sort of, nearly.

A reminder to check with your local councils regarding possum and rabbit poison drops. Wellington Regional Council have begun a Possum Control campaign in the Akatarawa Forest using 1080 pellets and warning signs have been erected. However, they recommend that dogs are not brought into the Forest until the warning signs have been removed (November 2013). Closer to home, make sure any household poisons such as rat bait, washing powder, etc., are kept up high and out of reach—after all, Samoyeds are known for their nosiness.

This issue also includes results and photos from the recent Championship and Open Shows held on 31 May 2013. Congratulations to all of the winners and a big thank you to Lynne Barr for all of the behind-the-scenes organising which made for a highly successful day.

On the subject of shows, you will find a Survey form and postage-paid envelope in this issue regarding the timing of the 2014 Championship and Open Shows. The committee would appreciate you completing the form and returning it even if you do not show - after all, we also need to take into account the views of spectators and other supporters of these events. Please return your form by 31 July 2013.

In the next issue, I would like to do a photo essay of dogs and owners so send in your photos with your details—any embarrassing situations such as the dogs occupying the couch are very acceptable. Any contributions can be sent to my human at clive.litt@xtra.co.nz. Until next time....

Mr Dickens

The Samoyed Club Inc. Championship Show 2013

Judge's Critique

First and foremost, I want to thank the Organisation and exhibitors for the kindness and attention we received, both my husband and me.

Enjoy a lot judging the 2013 Championship Show, the Samoyed Club Inc.

I will begin my reports by Puppy Dog class where I found one puppy with a lot of quality - a very correct head, good width of skull, good muzzle and correct pigmentation. Its compact body with good top line and a superb hair quality, developing a typical right move and despite their youth. I would like a little more width in front, but I think it will improve when his development.

In the Junior Dog class, had a copy very masculine and typical overall with excellent head, correct pigmentation, good skull and muzzle, has very good insertion ears, their movement is correct and typical, I would like something more compact body and little more height leg.

Dog in the Intermediate class two males could judge the first male with good qualities of the breed, excellent head, very good pigmentation and excellent hair. Its very good temperament. The neck is short and I would like a little more leg height and a little more front angulation

The second is a very male specimen with excellent head, his expression very typical of the breed. Good body and tail. His movement is correct. Wish hair in better condition, the colour of the eyes a little darker and a little more leg length.

In Limit Dog class, the first duplicate a male with good overall qualities, a good head which highlights its superb pigmentation typical expression of the whole head. Angulation front and improve your hair would be better able.

And the second is a male specimen and a good size with an excellent head, nice expression, would emphasize the hair, in a great condition. I wish a little more leg length and slightly wider at the front.

Two copies in New Zealand Bred Dog class the first a male right size, with a good head, good length of neck, compact body with a right move, and very good temperament for show. I wish it had a little more leg length, slightly darker eyes, his mouth is very old.

And the second a copy very masculine, very good expression, very correct hair, good length of neck, correct body proportions. His wrists are a bit soft and the length of its tail is a little short.

In class a copy Veteran Dog pleasantly surprised me, it is a male with 12 years old, still shows very good overall qualities of the breed, correct movement and develops a typical fitness and temperament and is very good in the ring.

In the Open Dog class had two copies the first is a very typical specimen with good qualities of the breed, has a very correct and typical head with good pigment, good neck and correct body proportions. Develop a typical right move and push back good, good front extension and an excellent temperament. His hair is not in the best condition.

The second is another male of excellent qualities, with his hair in excellent condition, a magnificent temperament, and correct head and typical. I wish a little more angulation front and a little more height leg, moving the board a little later.

Generally would emphasize all males to judge, with good qualities typical specimens of the breed, excellent pigmentation generally good temperaments and would improve, leg height, and the length of their tails.

We started with the females in Baby Puppy Bitch class, the first very correct in general, very good guy, very typical head with good pigmentation, shows a very good temperament, correct hair. At this time your body is a bit long, I think because of the young age and the development correct, no problems.

The second baby usually has very good qualities of the breed, very good type, correct leg length and proportions. His eyes are large and would like the same colour was a little darker.

The third is a very correct and typical baby generally very feminine with a great head and a very typical expression, hair has a very correct and a wonderful temperament. Develop a very correct movement typical despite his young age.

In class there is a puppy Puppy Bitch very feminine, very good head, her hair is superb quality and has a good temperament, it lacks a bit of pigment on the lip, the shoulders are a little loose. Also like a little neck length.

In the Junior Bitch class with a female judge in general good qualities, excellent head, very typical of correct body proportions, good temperament Ring and proper motion. Wish a hair in better condition, and a little more bone.

Limit Bitch class in a very feminine female, has good body proportions, and hair right. Snout would slightly shorter, slightly collar length, and a little more lightly hueso.es a female in general.

In New Zealand Bred Bitch class triplicate, the first is a very feminine female and generally correct, with a good head and neck, with very good temperament and correct movement and typical. I just wish a hair better.

The second female has very good head and pigmentation, good temperament. Would like a little leg length, and moving swings its topline.

The third is also a very feminine female with nice expression and great hair, her body is a little long, and move opens the hocks.

In the Veteran Bitch class could see two excellent females.

The first veteran is in excellent overall condition for its age, very good head and a good temperament. I want more compact body, its movement is correct and typical. The other female veteran, has very good qualities, is compact and is in very good overall condition., But would like darker eyes.

I finally found four females in the Open Bitch class

The first one female very feminine and nice guy generally has good head and neck. The movement is correct. But would like a little more bone, and more leg length, likewise their eyes might be darker.

The second is a very feminine female with excellent hair, generally correct, with good head and expression. Wonderful temperament to show, but the body too compact.

The third female shows excellent temperament ring, nice expression with a head of good size and proportions, neck of sufficient length. I wish one eye darker, a little more leg length, and angulation some more later.

The fourth female is very feminine, generally correct with excellent head and expression very good length of neck típica.Tiene. Her hair is in great condition. Your body has proporciones. Y correct their movement is correct.

Females in general I like them all, especially the Baby class and the Open class.

So I predict a bright future in the race, for years to come.

Kisses, Carmen Navarro

Anyone with Nutrience dog food barcodes, please remember to keep sending them to Lynne, and thank you to those who regularly do

Remember that you need to be a member of the Samoyed Club before you can claim points!

All breeders, please remember to get your new puppy owners to join the club. With events like the Fun Days and Sammy Walks, there is plenty of ways for everyone to be involved with other members and their dogs.

Samoyed Plate up for Grabs!

Thanks to Lyn and Gary Carleton who have donated this gorgeous plate to the Samoyed Club. We will be listing this on TradeMe on 1 August and invite everyone to put in a bid!

The plate measures 21cm in diameter and features a lovely gold trim on the rim.
