## Recent Samoyed Walk in Petone

The club recently had a Samoyed  
walk out in Petone, we had a  
good turn out with around 10  
Samoyeds and a greyhound.

## Choosing a Puppy for the first time - what you should consider

The benefits of desexing your  
Samoyed, especially if you are  
not going to breed them.

### Lisa Chapman

Phoebe is the first dog for Lisa and Peter – our Fur Baby.

When we moved to the Hutt Valley in 2006 both immediate neighbors had dogs. One was a Samoyed x Labrador called Scampy that we took for walks Mon-Fri mornings for over two years, continuing when we moved to the other side of Lower Hutt, until they moved out of the area. That is when we changed dog to the other neighbors who used to breed and sled-race Malamutes and brought two over from Australia. The 13 year old male Malamute had died leaving his daughter Jenna on her own, so we drove over to take her on our regular walk for nearly 3 years.

Back then our morning walks with both Scampy and Jenna took the long way (45 minutes) via streets to the river bank walkway, the dog park and then on to McCafe where dogs are made welcome, with a bowl of water and dog biscuit, while we had our coffee and read the paper before walking 15 minutes back to home.

Sadly Jenna was put down last winter at age 14 ½, but we were privileged to be there with her and her family when she was put to sleep.

So, in our mid 50's with an empty nest once the last of our four children had left home, all our friends and family (with and without dogs), strongly urged us to get our own puppy. My family had three Samoyeds over the years and as a teenager I used to do a lot of the walking and grooming and showed one of them, a couple of times. Before we met, Peter had working dogs on the farm then a pet Labrador in the city. So after deciding on a Samoyed (for obvious reasons), we found Sunshine Samoyeds and

then waited for a litter from BJ.

Now we walk 30 minutes along the Hutt River Trail to McCafe with our own dog – Phoebe now 7 ½ months is already known by the staff and regulars at McDonalds and enjoys meeting people while we have our coffee before walking home.

Our fur baby is never alone for long as we are Insurance Agent/Advisers and run our business from offices at home. We don't plan to show Phoebe but have been training her since the get go with puppy pre-school and are currently doing Beginners Agility training for fun. We all enjoy our weekly session with a variety of dogs and although the youngest by far, she is a star showing promise, even impressing Jo Godard with her intelligence.

We love that our Samoyed brings a smile to everyone she meets and greets.

### Lynda Pothoven

My name is Lynda Pothoven, I'm from Levin. I have two Samoyed's, Kasper (Sunshine Klasic T Bucket) is seven years old and Krystal (Sunshine Dream of Krystal) is seven months old.

A few years ago I lost my 13 year old Black Labrador Missy to bone cancer. When the time was right to have another dog in my life, I came across Kasper on Trade Me, he was five years old. Kasper had been to several homes in the past with none of them being right for him. I emailed Anita Shugg to give her some background information on myself to see if

## New Committee Members

she thought Kasper would fit into our family. I went down to meet Kasper and we fell in love, Kasper came for a weeks trial, and he hasn't left me since.

Totally love the Samoyed breed, hence the reason I now have two.

I joined The Samoyed Club, and I am now the Samcare co-ordinator.

Love my 2 gorgeous Samoyed's.

### Christina Wells

Hi I'm Christina and my journey into the Samoyed world has only recently begun, though I was first told about the Samoyed breed around three years ago by a colleague.

I was moaning about the unfortunate fact that while I loved dogs, most tended to have that real 'doggie odor' which in all honesty makes my nose scrunch up! That was when I was told to look into the Samoyed as they weren't known to have that real doggie smell (and now that I have got to know the breed better I'd say they don't have any doggie smell!)

It was only last year that I actually got to meet my first Samoyed - not long after joining the Club and it really has concentered the fact that I do want to be a Sammy owner when the time comes!

I am now a committe member and in charge of the new website and am the editor of this magazine! So I hope you enjoy the new look of both and I encourage you to voice your ideas and concerns in regard to each of them.

I am looking forward to more future events where I get to 'steal' a samoyed for the day or event and seeing you all there!

## Show One Critiques

### Baby Puppy Dog

1. OSCARBI RAP-IT UP DADDY - A typical baby just starting to go through the gawky stage. Correct bone and moved well for his age. A promising baby who enjoyed the ring. BP.

### Puppy Dog

1. AKEISHA SNOW-KISSED IVORY - 7mths old. Head is in developing stage as you would expect for this age. A balanced body with strong, clean movement both coming and going.

2. SUNSHINE TRUE COLOURS - A month younger than the winner. He is still in the gawky stage, however has good expression and conformation, but did not show at his best on the day.

### Junior Dog

1. KALASKA LOOK AT ME GO DADDY AT OSCARBI (IMP AUST) - A very good head and expression and just coming into a lovely new coat. He was balanced in side gate and clean coming and going. Handled and shown well.

2. SMILING MIRACLE CESARE IMPERIAL (IMP LATVIA) - A lot to like about this dog. He has a good head, well balanced body, with strong forequarters and hindquarters, however he was unsettled in the class on the day.

3. CH.AKEISHA FEARCHARIA - This dog had a good expression moved well coming and going, but lacked the maturity of those placed ahead of him.

### Intermediate Dog

1. Ch ZAMINKA KING OF ROCK - Typical head with correct expression, strong side gait and clean coming and going. Beautifully presented and shown. RDCC

### Limit Dog

1. KELLJASS HANDSOME SNOW BEAR - A typical head and balanced body. Excellent, coarse coat and also possessing good feet.

### New Zealand Bred

1. KURSHAN GOLDEN MACKKEY - A good head

# Show One

and expression, well developed body with clean movement coming and going.

2. Ch KURSHAN VINTAGE VANTAGE - Another good expression and body shape. Clean coming but a little closer going away.

## Veteran Dog

1. NZ Ch KALASKA ASTRO BOY AT OSCARBI (IMP AUST) - A very pleasing Sammy who has a very good head and expression with excellent body outline. He moved well and was beautifully presented and shown. BV

2. SUNSHINE KLASIC T BUCKET - Typical head with balanced body, Good coat texture with lovely feet. Not quite in the bloom of the winner.

## Open Dog

THIS IS A LOVELY CLASS OF MALE SAMOYEDS!!

1. Ch OSCARBI EVEREDI BOY - Very good head and expression with correct reach of neck. He possessed an excellent top line and tail. Strong forequarters and hindquarters, which showed in his movement on the day. Showed and presented well. DCC RUIS

2. Ch ZAMINIKA THAT COOL CAT - Another typical dog with correct head and ear carriage, a well-balanced body and clean movement coming and going. I would have liked a little more undercoat.

3. Ch SUNSHINE TRI TEDDY - An excellent head with correct eye shape and ear placement and clean movement coming and going. He possessed good feet, but he was a little taller than the two placed ahead of him.

## Puppy Bitch

1. AKEISAH SNOW-KISSED ISABELLA - A well balanced outline on this puppy, with correct head and eye shape and colour, with a good reach of neck. She moved well coming and going. BP

2. OSCARBI UNMISTAKABLY MOI - A month younger than the winner. Typical head with strong top line and coming into a very plush puppy coat. She showed and moved well. Very close decision.

3. SUNSHINE DREAM OF KRYSTAL - I liked many things about this puppy, however, she was inexperienced in showing. I would like to see her

again as she matures. She had a pleasing head and expression with correct body shape.

## Junior Bitch

A QUALITY CLASS OF BITCHES!

1. Ch ZAMINKA ONE NIGHT STAND - Super youngster, with excellent balance and outline, feminine head with correct eye shape and colour. Good reach of neck, strong forequarters and hindquarters which showed in her movement. Showed and handled well. RBCC

2. Ch ZAMINKA SHINE LIKE A DIAMOND - As I see from the catalogue, another bitch bred by this kennel. Very nice head, slightly stronger than the winner. A balanced body, and moved well with good feet.

3. ANAKY SAY YOU LOVE ME (IMP AUST) - Correct head and expression and I loved the biscuit on the ears. Correct set and tail. Moved well, however not as mature as those placed ahead of her.

## Intermediate Bitch

1. KURSHARN VINTAGE VAMP - Typical head with correct eye shape and ear carriage. Strong top line and she moved well. Good feet.

2. Ch ZAMINKA COOL BREEZE - Correct head and expression with lovely ear shape. A balanced body and moved well. Close decision between these two.

3. KELLJASS WINTER FAIRY TAIL - Good head on this bitch with a nice shape of body with correct outline but not as mature as the first two placings.

# Show One

## Limit Bitch

1. KELLJAS SNOW PRINTS ON ICE - Typical feminine head on this bitch with good reach of neck and she moved well coming and going. However, would have liked to see more undercoat. BL
2. KELLJASS DANCIN-WITH-DA-DEVIL - Another bitch with a correct head and expression but not quite as steady in the forequarters as the winner. She was also lacking some undercoat.

## New Zealand Bred Bitch

1. Ch ANGARA SNEAKING ME KISSES - Excellent head and expression with lovely reach of neck. A well-developed body with correct angulation in front and rear. Coat was in excellent condition. B NZB
2. Ch ZAMINKA DIAMONDS FOREVER - Slightly smaller than the winner, but another quality bitch with correct head and strong balanced body. Showed well.
3. Ch SUNSHINE BJ'S DREAM - Good head and expression, moved well excellent feet, however for me I would have preferred more substance.

## Veteran Bitch

### ALL QUALITY BITCHES

1. Ch SUNSHINE PAINT ME GOLD - Nearly 10 years of age and moved around the ring like she owned it, and she was so strong with her movement.
2. NZ Ch ALDONZA CHABLI FOR MCCOY (IMP AUST) - Close to 11 years old with a correct head and expression and her coat was in excellent condition .She showed well.
3. Ch ZAMINKA MAGIC MOMENTS - Excellent head and expression on this bitch moved and showed well. Close, very close between her and second place.

## Open Bitch

Three very good bitches, slightly different in shape, very close decision.

1. Ch ANGARA DANCING WITH THE STARS - Excellent, mature 8 year old bitch with a most typical head, neck and top line. She was so balanced in the body, with strong forequarters and hindquarters which was evident in her movement.

She was in perfect condition on the day. CC BIS

2. Ch NIKOLAEVSK MISSION TO VENUS - A younger bitch in comparison to the winner, and not as mature. She had a very feminine head with good expression, excellent reach of neck, and moved very well coming and going. I would have liked a little more under coat. I liked this bitch a lot.

3. Ch ZAMINKA POWER BALL - A very good head with typical expression, compact body, strong reach and drive and coat in excellent condition. Shown well.

# Samoyed Walk 27 July - 27th July at the Hutt River Trail

---

---

Hello everyone,

This was my first Samoyed walk as the new club and committee member now organising these events with our pup Phoebe from Sunshine Samoyeds.

A great turnout, thank you all for taking the time and making the effort to come from near and far away, including Hutt Valley, Wellington, Johnsonville, Otaki, Kapiti Coast, and even Masterton.

It was fantastic to meet everyone along with the 10 Samoyeds, + one crossed with a Finnish Lapphound and, Phoebe's "cousin" GAP Greyhound.

Weather was typically cold with a southerly breeze but no problem for our Samoyeds and the rain held off for us all.

The pack really enjoyed each other's company and it was wonderful to see a Samoyed wherever I turned. It is true that Sammies love meeting up with their own breed, and even all the different owners seemed to get along too.

We would love to have a Samoyed pack walk bimonthly, mainly because Phoebe loves to see her mum BJ, litter mates and all the other Sammy's

whenever she can.

So some feedback and ideas for the future would be appreciated, as we would like to have at least four good dog parks/trail places around the Wellington region, say two on Kapiti coast and two in the Hutt Valley, to mix it up so we all get a walk reasonably close to home.

Do feel free to contact me directly, meanwhile: Pencil in your diaries - Sunday 28th September for our next pack walk with time and place to be confirmed. It's the first daylight savings day so maybe later in the afternoon.

Anyone that would like to come to the next one to email or phone you to ensure you're on the invite list.

Happy trails and wagging tails.

# Choosing a Puppy for the first time - what you should consider.

### Male or Female, Which is Right for Me?

Traditionally many people consider purchasing a new puppy by gender only. However, choosing by gender alone is not making a well informed choice and could potentially place you with a dog that is not at all what you were expecting. There are many different reasons to choose a puppy. Take a minute and think about the reason you want a new pet; is it to have companionship, competitions, or an addition to your family? Think about the type of temperament, personality, and energy level you are looking for. Making sure you know what you are looking for in all these areas before you start looking for a new member of the family! Also evaluate yourself. One thing families forget to do is look at their own lifestyles, personality traits, natural temperament, and energy level.

Once you have evaluated yourself and know what you are looking for, now you need to find the right puppy. To make your life easier, I highly recommend getting a puppy that has lower energy and personality than yourself and of those family members who will be prominent in its training. A lot of the time families want the most active

and playful puppy. However, the puppy's energy level can be adorable and attractive, but once they mature they can be challenging and assume the leadership position. Since, we are all born with different temperaments and some naturally assume leadership, connecting families with puppies that will mesh well with a family is very important. Energy level is one way to determine temperament of a puppy. If a family is matched with an incorrect temperament for their home regardless of the sex of the puppy, it can cause chaos and frustration. In these cases, the owner or human must step up to the challenge and arise to a higher level of assertiveness and energy than the dog in order to have respect and control over a dog who is naturally higher energy and more independent. This can be difficult and if it is not your natural inborn temperament, it can be very draining on you and your family. This is why knowing your temperament and purchasing a male or female dog that is one or two levels of energy lower than you is **EXTREMELY** important. Otherwise the dogs, whether male or female, will rule the house and exhibit bad behavior.

## Quick Reads

Traditionally females have been portrayed as being a better family pet. This is a myth and antiquated information that has been integrated into our society. Since now a days people have their dogs "fixed" many of the gender specific tendency's are then eliminated. Actually, in wolf packs, female dogs are usually the alpha dogs, or leaders of the pack. Many times dog fights are between two females, fighting for the top position. Most males only fight for a female in season and this can be eliminated if they are neutered.. Females can display moodiness, aloofness and independence. Females like affection and simply are not very needy'. However, the fact remains that a female dog can be more independent, it is her nature. If you choose a female, be prepared to become her unequivocal leader, so she can relax and not worry about being the leader of your pack! If your choice is a female puppy, in order to create the most loving and healthy pet, please spay her before her first heat, usually around six months. Letting your dog come in and out of heat without breeding starts a negative cycle of elevated hormones that can cause her to become moody and crabby. Also, it is a scientific fact that females spayed before their first heat have a dramatically reduced chance of developing gender related cancers. This will also serve to keep her from experiencing hormonal imbalances and associated bleeding. If a happy pet is what you seek or a companion animal, please take this advice to heart.

### Male Puppies and Dogs

Traditionally, male dogs have gotten a bad rap from our society. They are portrayed as hard to train, constantly marking their territory by humping their leg, humping anything and instigating dog fights. THIS IS NOT TRUE. Neutered males make the best pet for a family with young children or older adults. They are more committed to the family, they are easier to potty train and seek out love and attention. The number one biggest mistake of male dog owners is not neutering their pet. Experience has shown that men are the most adverse to neutering their pets, for obvious reasons. If you are not going to breed your dog regularly, he needs to be NEUTERED or he will be in constant torture! If you do breed your dog regularly he will mark his territory, he will hump anything and he will be more excitable than a neutered male dog. Why are un-neutered

and neutered male dogs so different? A dog has approximately 2 million more olfactory sensors than a human. As humans we can distinguish very few smells. Humans operate on visual, hearing and smelling in that order. Dogs are born with their nose working first, then their eyes opening and then their ears opening. Nose, eyes, ears. For example, humans can smell hamburgers grilling on a BBQ. The same experience for a dog involves smelling the bread, the condiments, the hamburger, the pickle, the tomato, the chips...every single ingredient of that burger! That is why dog are employed for drug sniffing, bomb searching and they even have dogs that that have been trained to sniff for changes in humans and detect cancer cells! Now, imagine you have a male dog, about one year old. This dog has not been neutered and has large amounts of testosterone running through his system and a female dog in heat is nearby. Can you imagine the frustration and excitement created for this dog with no outlet for him to pursue? This dog can then be labeled, aggressive, un-trainable and excitable (and yes he will mark his territory) when his reaction is simply nature taking its course. As you can see, taking action with a male puppy early and having him neutered is in everyone's best interest. It will make him a calm and in better control of himself and you will be a much happier owner. Males make really great and loyal pets. If you do choose one, please get him neutered. He will thank you for giving him a life of peace and calmness!

What ever you decide to do, make sure you choose a pet that will fit your lifestyle and energy level. Samoyeds are active yet can be laid back, happy by nature, eager to please and make fantastic family and companion pets. They most often have a wonderful temperament, they are easily trained and great with children! They naturally are loyal and love to be spoiled! As a breed, they can make a well rounded family pet.

### Farewell to Greg Newell

Greg Newell

Greg Newell left us early this morning. He was at home, and his wife, Denise Nations Newell, was with him. It was Nodular Melanoma. He was 61.

Greg was one of the good ones. He was that rare creature, an honest man, who wasn't also gullible. He was often blunt, but never purposely unkind.

Greg was an engineer who started Samoyed.org, put Samoyed Rescue on the internet, long before most people had heard about the internet, and put the Organization for the Working Samoyed and the SCA on his site as well. He's the reason Samoyed people were on the net long before most breeds. He also started a Samoyed rescue group and he saved literally hundreds of dogs hands on, and more over the internet.

When Samfans.org went down under attack, Greg put it up on his site. And when Samoyed.org went down, I put it up on Samfans. For a long time he had the passwords to my sites, and I had them to his. He helped me with network problems, and I wrote code for his site. He never asked for anything, (I had to offer) but he offered help whenever he could.

Greg was a friend, and a good one. I counted on him. I hope he counted on me.
